

4. In 3-5 sentences, please share an overview of your and/or your team's process of creating wireframes or a prototype. What was the most challenging thing about the process of creating your wireframes or prototype? What did you learn?

We discussed the features of our application and proceeded to sketch the wireframes. We then went to figma to design our wireframes.

In our team's creative process, we kick off by brainstorming to define our goals and understand user needs. We then start sketching wireframes on paper, keeping simplicity and functionality in mind. Transitioning to digital tools, we refine these wireframes, incorporating feedback from stakeholders and usability testing. The most challenging part is finding the right balance between simplicity and functionality to ensure our prototype effectively communicates the user experience. Through this journey, we've learned the power of iterative design, constant collaboration, and the invaluable insights gained from user feedback in refining our prototypes.

7. Reflection on your Team experience

Write a reflection on your experience and your team's effectiveness so far. Be sure to include:

A. What is working well with your team?

One aspect that's working particularly well with our team is our open communication and collaboration.

B. What is one good thing that happened during your team meeting?

One good thing that happened during our team meeting was that we successfully resolved a challenging issue by brainstorming creative solutions together.

C. What is one thing your team could do better in the next meeting?

One thing our team could do better in the next meeting is to ensure everyone has a chance to voice their opinions and ideas, promoting inclusivity and diverse perspectives.

D. Are you experiencing any concerns or frustrations with your team? If yes, what can you personally do to lessen the concern/frustration?

I'm not experiencing any concerns or frustrations with my team at the moment. However, if any arise, I would address them openly with the team and work collaboratively to find solutions.

E. How would you rate your ability to communicate with your team members on a scale of 1 to 4? (1=extremely poor and 4=excellent)

I would rate my ability to communicate with my team members as a 3, meaning good. There's always room for improvement, but overall, I feel confident in my communication skills within the team.

F. Overall, how satisfied are you with how well your team is working together? (On a scale of 1 to 4, with 1=extremely poor and 4=excellent)

Overall, I'm satisfied with how well our team is working together, so I would rate it as a 4, meaning excellent. We have a supportive and collaborative environment that fosters creativity and productivity.

G. Is there anything else you'd like to share about your team and their process?

Our team has been excelling in collaboration and problem-solving lately, which has contributed to our overall success. I'm proud of the positive dynamic we've established and look forward to continued growth and success in the future.
